MUHAMMED IRSHAD M

Aspiring Machine Learning Engineer | Python Developer

Areekode, Malappuram, Kerala 673639 | 8590709006 | irshadmm16@gmail.com | linkedin.com/in/irshad-m

PROFESSIONAL SUMMARY

Computer Science undergraduate with practical experience in Python, Machine Learning, Deep Learning, and AI application development. Proficient in TensorFlow, PyTorch, Django, and data-driven software solutions. Experienced in developing machine learning models, REST APIs, and healthcare-focused AI projects. Eager to contribute strong analytical and programming skills in Python Developer and AI/ML roles.

TECHNICAL SKILLS

Programming Languages: Python, C

Machine Learning & Deep Learning: Scikit-learn, TensorFlow, Keras, CNN (VGG-16 Transfer Learning), ANN, Model Development & Optimization, Hyperparameter Tuning

Data Science & Analytics: Pandas, NumPy, Data Preprocessing, Feature Engineering, Exploratory Data Analysis

MLOps & Deployment Tools: MLflow (Experiment Tracking), DVC (Data Versioning), Git/GitHub, Flask (REST APIs), Streamlit (Web App Deployment)

Soft Skills: Leadership, Communication, Problem-Solving, Team Collaboration

EXPERIENCE

Python Developer Intern — Maxlore Innovations *August 2022*

- **Engineered** and deployed RESTful APIs using Flask, optimizing backend database queries to reduce average response latency by **30%**.

PROJECTS

Chest Cancer Detection using Deep Learning

- **Architected and trained** a CNN model (VGG-16 transfer learning) on 300+ CT scan images, achieving **96% accuracy** in tumor detection — an 8-point improvement over an 88% baseline.
- **Reduced** false positive rate by **30%** through systematic hyperparameter tuning and data augmentation.
- **Automated** the end-to-end ML pipeline using MLflow (10+ tracked experiments) and DVC for dataset versioning, cutting model retraining time by **40%**.

GitHub: github.com/irshadmuhammed/Chest-Cancer-DeepLearning

Bank Customer Churn Prediction

- **Built and tuned** an Artificial Neural Network (ANN) to predict customer churn, achieving a **91% F1-score**, enabling proactive identification of at-risk customers for targeted retention strategies.
- **Deployed** the model as an interactive Streamlit web application serving **500+ monthly predictions**, cutting manual analysis time by **65%**.

GitHub: github.com/irshadmuhammed/ChurnPrediction_ANN

EDUCATION

- **B.Tech in Computer Science and Engineering — College of Engineering Trivandrum** *2023 – 2026*
- **Diploma in Computer Science — AKNM Polytechnic College, Thirurangadi** *2020 – 2023*

CERTIFICATIONS

- Complete Data Science, Machine Learning, Deep Learning & NLP Bootcamp — Udemy

LANGUAGES

Malayalam (Fluent), English (Fluent)
